Clinica Chimica Acta 261 (1997) 197–199

Subject index

Volume 261 (1997)

Actin; Rheumatoid arthritis; Neutrophil; NSAIDS **261**, 19

Apolipoprotein B; Hyperinsulinemia; Lipoprotein (a); Triglycerides; Cholesterol **261**, 149

Apolipoprotein(a); Lipoprotein(a); Latex agglutination; ELISA **261**, 175

Aqueous humor; Glutathione peroxidase; Selenium; Ascorbic acid; Cataract **261**, 117

Ascorbic acid; Aqueous humor; Glutathione peroxidase; Selenium; Cataract **261**, 117

Atrial natriuretic peptide; Brain natriuretic peptide; Cardioplegia; Coronary artery bypass grafting; Ischaemia; Reperfusion **261**, 57

Bedside test; Newborn; children; CRP; Fat agglutination test **261**, 141

Blood catalase; Determination; Reference range; Hypocatalasemia; Electrophoretic mobility **261**, 35

Bone alkaline phosphatase; Osteonectin; Osteocalcin; Parathyroid hormone; Calcitriol; Renal transplantation **261**, 105

Brain natriuretic peptide; Atrial natriuretic peptide; Cardioplegia; Coronary artery bypass grafting; Ischaemia; Reperfusion **261**, 57

Butyrylcholinesterase deficiency; Succinylcholine; Gene sequence analysis; Point mutation **261**, 27

CRP; Newborn; children; Bedside test; Fat agglutination test **261**, 141

Calcitriol; Bone alkaline phosphatase; Osteonectin; Osteocalcin; Parathyroid hormone; Renal transplantation **261**, 105

Cardioplegia; Brain natriuretic peptide; Atrial natriuretic peptide; Coronary artery bypass grafting; Ischaemia; Reperfusion **261**, 57

Cataract; Aqueous humor; Glutathione peroxidase; Selenium; Ascorbic acid **261**, 117

Chemical anti-inhibitors; Serine proteases; Fibrinolysis; Inhibitors **261**, 43

Children; Newborn; CRP; Bedside test; Fat agglutination test **261**, 141

Cholesterol; Hyperinsulinemia; Apolipoprotein B; Lipoprotein (a); Triglycerides **261**, 149

Cholesterol; Liver function; Viral hepatitis **261**, 159

Chronic hepatitis C; Vitronectin; Interferon **261**, 81

Coeliac disease; Gliadin; Food peptides; Intestinal epithelial cells; γ-Interferon **261**, 69

Colonic polyps; LIA; IgA in faeces; Normal range; Crohn's disease; Ulcerative colitis; Inflammatory bowel disease **261**, 1

0009-8981/97/$17.00 Elsevier Science B.V. All rights reserved

Coronary artery bypass grafting; Brain natriuretic peptide; Atrial natriuretic peptide; Cardioplegia; Ischaemia; Reperfusion **261**, 57

Crohn's disease; LIA; IgA in faeces; Normal range; Ulcerative colitis; Colonic polyps; Inflammatory bowel disease **261**, 1

Determination; Blood catalase; Reference range; Hypocatalasemia; Electrophoretic mobility **261**, 35

ELISA; Lipoprotein(a); Apolipoprotein(a); Latex agglutination **261**, 175

Echinocytes; Lipid Peroxidation; Hemodialysis **261**, 185

Electrochemical detection; Oxalic acid; HPLC; Enzymatic reactor; Enzymatic kit **261**, 131

Electrophoretic mobility; Blood catalase; Determination; Reference range; Hypocatalasemia **261**, 35

Enzymatic kit; Oxalic acid; HPLC; Enzymatic reactor; Electrochemical detection **261**, 131

Enzymatic reactor; Oxalic acid; HPLC; Electrochemical detection; Enzymatic kit **261**, 131

Fat agglutination test; Newborn; children; CRP; Bedside test **261**, 141

Fibrinolysis; Serine proteases; Inhibitors; Chemical anti-inhibitors **261**, 43

Food peptides; Gliadin; Intestinal epithelial cells; γ-Interferon; Coeliac disease **261**, 69

Gene sequence analysis; Butyrylcholinesterase deficiency; Succinylcholine; Point mutation **261**, 27

Gliadin; Food peptides; Intestinal epithelial cells; γ-Interferon; Coeliac disease **261**, 69

Glutathione peroxidase; Aqueous humor; Selenium; Ascorbic acid; Cataract **261**, 117

HPLC; Oxalic acid; Enzymatic reactor; Electrochemical detection; Enzymatic kit **261**, 131

Heavy metals; Lead; Manganese; Lysosomal enzymes; In vitro study; In vivo study **261**, 91

Hemodialysis; Echinocytes; Lipid Peroxidation **261**, 185

Hyperinsulinemia; Apolipoprotein B; Lipoprotein (a); Triglycerides; Cholesterol **261**, 149

Hypocatalasemia; Blood catalase; Determination; Reference range; Electrophoretic mobility **261**, 35

IgA in faeces; LIA; ; Normal range; Crohn's disease; Ulcerative colitis; Colonic polyps; Inflammatory bowel disease **261**, 1

IgG subclasses; Immunofixation **261**, 189

Immunofixation; IgG subclasses **261**, 189

Inflammatory bowel disease; LIA; IgA in faeces; Normal range; Crohn's disease; Ulcerative colitis; Colonic polyps **261**, 1

γ-Interferon; Gliadin; Food peptides; Intestinal epithelial cells; Coeliac disease **261**, 69

In vitro study; Lead; Manganese; Heavy metals; Lysosomal enzymes; In vivo study **261**, 91

In vivo study; Lead; Manganese; Heavy metals; Lysosomal enzymes; In vitro study **261**, 91

Inhibitors; Serine proteases; Fibrinolysis; Chemical anti-inhibitors **261**, 43

Interferon; Vitronectin; Chronic hepatitis C **261**, 81

Intestinal epithelial cells; Gliadin; Food peptides; γ-Interferon; Coeliac disease **261**, 69

Ischaemia; Brain natriuretic peptide; Atrial natriuretic peptide; Cardioplegia; Coronary artery bypass grafting; Reperfusion **261**, 57

Latex agglutination; Lipoprotein(a); Apolipoprotein(a); ELISA **261**, 175

Lead; Manganese; Heavy metals; Lysosomal enzymes; In vitro study; In vivo study **261**, 91

LIA; IgA in faeces; Normal range; Crohn's disease; Ulcerative colitis; Colonic polyps; Inflammatory bowel disease **261**, 1

Lipid Peroxidation; Echinocytes; Hemodialysis **261**, 185

Lipoprotein (a); Hyperinsulinemia; Apolipoprotein B; Triglycerides; Cholesterol **261**, 149

Lipoprotein(a); Apolipoprotein(a); Latex agglutination; ELISA **261**, 175

Liver function; Cholesterol; Viral hepatitis **261**, 159

Lysosomal enzymes; Lead; Manganese; Heavy metals; In vitro study; In vivo study **261**, 91

Manganese; Lead; Heavy metals; Lysosomal enzymes; In vitro study; In vivo study **261**, 91

NSAIDS; Rheumatoid arthritis; Actin; Neutrophil **261**, 19

Neutrophil; Rheumatoid arthritis; Actin; NSAIDS **261**, 19

Newborn; Children; CRP; Bedside test; Fat agglutination test **261**, 141

Normal range; LIA; IgA in faeces; Crohn's disease; Ulcerative colitis; Colonic polyps; Inflammatory bowel disease **261**, 1

Osteocalcin; Bone alkaline phosphatase; Osteonectin; Parathyroid hormone; Calcitriol; Renal transplantation **261**, 105

Osteonectin; Bone alkaline phosphatase; Osteocalcin; Parathyroid hormone; Calcitriol; Renal transplantation **261**, 105

Oxalic acid; HPLC; Enzymatic reactor; Electrochemical detection; Enzymatic kit **261**, 131

Parathyroid hormone; Bone alkaline phosphatase; Osteonectin; Osteocalcin; Calcitriol; Renal transplantation **261**, 105

Point mutation; Butyrylcholinesterase deficiency; Succinylcholine; Gene sequence analysis **261**, 27

Reference range; Blood catalase; Determination; Hypocatalasemia; Electrophoretic mobility **261**, 35

Renal transplantation; Bone alkaline phosphatase; Osteonectin; Osteocalcin; Parathyroid hormone; Calcitriol **261**, 105

Reperfusion; Brain natriuretic peptide; Atrial natriuretic peptide; Cardioplegia; Coronary artery bypass grafting; Ischaemia **261**, 57
